No. 1/1-1/IP/59—Under the existing procedure regarding the issue of Import Licences for Iron and Steel materials an Exchange Control Copy of the licence alone is issued in the first instance. A Customs Clearance Permit is issued on receipt of intimation of the arrival of the goods, on application by the importers, supported by suppliers' Invoices and other relevant documents. With a view to simplifying the procedure, it has been decided that in future Customs Clearance Permits will be required in the following cases only:

- (i) imports made against established importers' licences for imports of all categories other than Tool, Alloy and Special Steels; and
- (ii) imports of statutorily controlled categories of iron and steel, which on arrival, are to be distributed according to the Iron and Steel Controller's instructions.

2. Import Licences in all other cases i.e. actual users' licences; established importers' licences for categories on which no distribution control is being exercised, e.g. Tool, Alloy and Special Steels; and imports against Iron and Steel Controller's Acceptance of Tender will be issued in two copies, one valid for Exchange Control and the other for Customs purposes. This will take effect immediately.

3. As regards Import Licences already issued, licence-holders other than those referred to in para 1 above, may approach the Licensing Authority for issue of Customs Clearance Copy of the licences for the valid quantity/value.

4. Consequent on the withdrawal of the system of separate Customs Clearance Permit, all holders of Import Licences are advised to see that materials are imported exactly in accordance with the particulars given on the licences issued.
